IN TIMES OF ADVERSITY WE SUCCEED BY BECOMING UNITED, AND UNITED STARTS WITH YOU.
WHO WE ARE

Middlesex United Way serves as a community resource, always.

OUR MISSION FOR OUR COMMUNITY
By cultivating leadership and partnerships, bringing resources together, and investing in our community, Middlesex United Way acts as a catalyst to achieve measurable, positive impact in education, health, housing, financial stability and racial equity and inclusion. Middlesex United Way envisions a community where students succeed academically, individuals & families are healthy and safe & youth and adults avoid risky behaviors, have safe & affordable housing, are economically stable, and a community that is anti-racist, equitable, and inclusive.

THE CURRENT STATE OF OUR COUNTY
Middlesex United Way immediately took action in this pandemic and lead a response to meet the basic needs of those in our community. We helped thousands of people who were struggling with maintaining or securing housing, mental health concerns, and food insecurity. While we disbursed our resources to help, we also focused on insuring that we make a more inclusive community for not only today, but tomorrow as well. By using our experience and network of partnerships, we helped a community in need while building a more secure community for the future.
During COVID-19, Middlesex United Way provided support to local agencies on the front lines of the need as well as provided over $58,000 directly to local families and individuals who were struggling to have their basic needs met.

**Provided Basic Needs to Community Members**
Through the Connecticut United Ways COVID-19 Fund, we disbursed over $800,000 directly to over 4,000 households throughout the state.

**Masks to the Community**
We rallied volunteers throughout Middlesex County to provide over 40,000 masks to individuals and families, first responders, and essential workers.

**Feed the Hungry**
Distributed 1,400 boxes of food, totaling over 17 tons of fresh produce, to families in need in Middlesex County.

**Middlesex United Way COVID-19 Fund**
We raised over $29,000 in our COVID-19 fund to directly disburse to families economically challenged due to the pandemic.

**Virtual Volunteer Opportunities**
We created opportunities for volunteers to support our community partners. Over 100 cards were written to nursing home staff and residents and over two hours of children’s books were read by volunteers.
WHY DONATE TO OUR UNITED WAY...

When you give to Middlesex United Way, your dollar stays right here to create change within Middlesex County. Individuals are still struggling to put food on the table and keep up with rent or mortgage payments due to extreme economic loss. The time of need has never been greater, and that is why your support is especially important during this year.
Thanks to our volunteers and donors, we’ve helped thousands of people during the COVID-19 pandemic.

By working to assemble partners, providers, and resources, including thousands of volunteers, Middlesex United Way was able to provide support most effectively to those in crisis within the community.

Even before COVID-19, and unfortunately more so in the aftermath, many community members are struggling. Some of our neighbors are facing inequalities every day and because of that, it can be difficult for our neighbors to meet their basic needs to thrive. COVID-19 has disproportionally impacted individuals of different races and income levels. We will continue our work to not only support our community, but to ensure racial equity while doing so.
