Middlesex United Way continues to respond to our communities most pressing needs in the wake of the COVID-19 Pandemic.

**PROVIDED BASIC NEEDS TO COMMUNITY MEMBERS**
Through the CT United Ways COVID-19 Fund, we disbursed over $800,000 directly to over 4,000 households throughout the state.

**MIDDLESEX UNITED WAY COVID-19 FUND**
We raised over $29,000 in our COVID-19 fund to directly disburse to families economically challenged due to the pandemic.

**MASKS TO THE COMMUNITY**
We rallied volunteers throughout Middlesex County to provide over 40,000 masks to individuals and families, first responders, and essential workers.

**VIRTUAL VOLUNTEER OPPORTUNITIES**
We created opportunities for volunteers to support our community partners. Over 100 cards were written to nursing home staff and residents and over two hours of children’s books were read by volunteers.

**FEED THE HUNGRY**
Distributed 1,400 boxes of food, totaling over 35,000 pounds of fresh produce, to families in need in Middlesex County.

During COVID-19, Middlesex United Way provided support to local agencies on the front lines of the need as well as provided over $58,000 directly to local families and individuals who were struggling to have their basic needs met.

By working to assemble partners, providers, and thousands of volunteers, Middlesex United Way was able to provide support most effectively to those in crisis.
